After high school, I plan to:

Attend a 4 year college
Attend a 2 year college
Go into the workforce
Military

CHECKLIST

I have marked a total of 14 X's (preferred courses) and 4 A's (alternate courses).

Off Campus Block Courses

Block courses will usually replace four hours of your high school schedule. Tuition is free for the majority of these programs, with few exceptions. However, textbooks, materials, electronic books/resources are the responsibility of the students, and may be costly. Several of the programs have testing criteria that students must meet, prior to being accepted, ▲=Math, Reading, and/or English assessment scores required. The institution sets the scoring criteria. All students enrolled in these programs must have a cumulative GPA of a 2.0. Note, many of the programs are competitive entry, therefore the higher the GPA the better. Attendance is also requested by the institution, and considered with each application for acceptance.

Please mark **any** program that you are considering taking your junior or senior year. The counseling department will be in contact with you to discuss your choices at a later date.
