You have a couple options when choosing to visit a college or university campus. You can contact the school's admissions department and schedule a private day, or you can attend an organized junior or senior day with students from all over! If you don't see a college you're interested in, simply go to their website and see if they have any days available. Remember to look at tuition closely when considering an out-of-state school! You can see tuition for any school on Xello by searching the school name.

**If you are going to miss school for a college visit, please reach out to our attendance secretary. 316-755-7070 ext. 7003*
